Are you getting ready to remodel or renovate your kitchen? Besides being a joy for you and your family to entertain, cook and relax in, renovating or remodeling your kitchen area is one of the most valuable projects you can undertake to increase your home's value over the long-term

According to national averages in 2015, homeowners invested \$56,768.00 on mid-range major kitchen remodel projects and \$113,097.00 on upscale kitchen remodeling projects (when replacing all cabinetry and appliances and when working with a professional team) including labor. No matter where your budget falls in this range of numbers, hiring a professional design team helps you avoid expensive and time-consuming mistakes while getting the kitchen of your dreams.

These three kitchen renovations, designed by professional interior designers, should help you visualize what is possible for your own home! After you peek inside these three very different homes you'll hopefully have a lot of kitchen remodel ideas to get you started.

Before

Laura Schwartz-Muller and her husband, Cliff, the owners of [FOUR POINT Design and Construction](#), were asked by their client to maintain the vintage feeling of her original 1920s kitchen, while incorporating all new cabinetry.

After

To do this, they installed a vintage, re-furbished Northstar refrigerator and a mismatched hardware and a gorgeous light fixture complete the look. I love the refrigerator's soft curves and vintage hardware juxtaposed with the geometry of the cabinetry -- it really is a dynamic combination.

Photography by Brian Thomas Jones

Laura and Cliff decided to move the cooking range to the opposite wall, creating more room on the other side of the kitchen. The ladder acts as a stylish accent, and provides access to the handy extra storage at the top of the kitchen.

ABOUT THE AUTHOR LESLIE HENDRIX WOOD
